

Voluntary Strike Off

Section 357 to 365 of the Companies (Guernsey) Law, 2008

Why would I choose to *Voluntarily Strike Off* my company?

This is a new section of the law that was created with the introduction of the Companies (Guernsey) Law, 2008.

Its purpose is to allow company directors to remove unwanted companies, which have not traded or carried on business for at least 3 months, from the register without the need to employ the services of a liquidator. It allows companies to be removed properly from the register and moves away from the historical practice of company directors relying on the Registrar to strike off defaulting companies .

Please note:

Company directors wishing to remove a company from the register using a voluntary strike off submission must ensure that they have met all of the requirements of the law **before** an application is submitted.

The Guernsey Registry is not able to provide legal advice or opinion and, therefore, if there is any uncertainty regarding this type of submission, independent legal advice should be sought.
